The Tube Creation Company

Specialists in manufacturing mild steel furniture to supply trade only contract furniture companies.

CONSISTENTTLY RELIABLE, RELIABLY CONSISTENT

#### 3

### Manufacturing steel furniture since 1995.

The Tube Creation Company has been manufacturing metal furniture for contract furniture companies for almost three decades. Throughout the years we have worked with some of the country's most respected furniture brands and have developed a reputation renowned for quality products, expert knowledge, and exceptional service.

#### 1995

Bob and Chris Vyse established the company in 1995, manufacturing chairs and other metal furniture components primarily for the Office and Educational sectors.

Bob and Chris have since retired; however, these sectors remain an integral part of the business.

#### 2014

On Bob and Chris's retirement in 2014, the business was bought by Jake Bailey who had been a long-standing customer of the company. Jake brought a wealth of knowledge and many years' experiences in the world of contract furniture.

His Aim – to follow in the founders' values but move the business forward to keep pace with the ever-changing furniture market – by investing in new systems, machinery, and most importantly, its people.

#### 2016

Two years on and the business was doing well, we had increased our team considerably and invested heavily in plant machinery, it was time to expand. At the end of 2016, we moved into a new factory twice the size.

The new building brought the much-needed space we required to meet demand and a significant improvement in working conditions for our workforce.

#### 2019

The growth continued, by 2019 we were seeing substantial increases in many other sectors outside of the Office and Educational market. Our horizons were broadening, and so it was time to expand again. At the end of 2019, we occupied our brand new, purpose built warehouse interlinked to our existing factory.

The additional building led to many operational improvements and gave us the freedom to explore much larger contract projects.

# Our History

#### 2020

2020 was a tough year for businesses globally and Tube Creation was no exception. With the closure of classrooms, hospitality and construction meant that lots of our projects were temporarily on hold. However, with the increase in break out office spaces and outdoor hospitality in high demand, we continued to support our customers through this unprecedented time.

#### 2021

With many sectors in the industry returning, 2021 saw Tube Creation embark on multiple projects, some of which included a fully furnished apartment block in Woking and our first 5-star hotel project in the Centre of Liverpool. The Built to Rent and Hospitality markets continue to grow and are a great addition to our core sectors.

# Why Choose Us

Staying true to our company motto "consistently reliable, reliably consistent", we pride ourselves on providing quality products paired with exceptional service. Our mission is simple, to consistently exceed our customer's expectations and become the first choice for the reliable manufacture and supply of metal furniture in the UK.

- 26 years in business and many additiona furniture sector
- Quality craftsmanship combined with superior QC checking
- Competitive lead times, giving the reassurance you need to meet your clients' schedule
- Product type, finish and quantity can be tailored to your project
- Relationship-focused business attitude
- In-house design and project management capabilities
- Manufactured solely in the UK, supporting the local economy
- Responsibly sourced materials from sustainable suppliers
- 100% of orders delivered on time throughout 2021 & 2022

• 26 years in business and many additional years' collective experience in the contract

Over 100 stock powder coating colours

Working with some of the UK's largest and best steel stockists allows us to source and secure an array of mild steel helping us deliver your perfect product to compliment your project.

Not only does working closely with our stockists give us a great working relationship but also gives us great access to laser cutting services. Laser cutting gives a high level of accuracy and improves cost efficiency on large orders.

With a highly skilled team we can comfortably meet your requirements. Whether you are using ERW, hollow section or folded sheet our team of fabricators are able to produce a high quality product with both TIG and MIG welding, and more recently laser welding. Having our own in-house powder coating capabilities allows us to provide a higher quality of service and gives us the ability to have a better handle on the quality of our finishes and offer a priming service for when extra protection and durability is required.

Not only do we stock a wide variety of colours we also offer 4 different finishes:

- Fine texture
- Matte
- Semi-gloss
- Gloss

By working with some of the country's leading powder supplies we also have the capabilities to procure RAL colours bespoke to your chosen pallet.

#### Sustainability

We acknowledge that we as a business have a responsibility to continuously look at ways in which we can improve our environmental performance. We appreciate that the aim to become carbon neutral is a journey and we understand the importance of taking the necessary steps to protect and sustain our environment. Our company is committed to:

- · Sourcing materials responsibly from our reputable and sustainable suppliers.
- Preventing pollution by reducing the number of vehicles we have on the road and consolidation deliveries.
- · Reducing and recycling all our waste through a reputable waste management company.
- Using non-toxic products, such as VOC free powder coating paint.
- To hold meetings remotely to reduce travel.
- Continually look for ways to improve our environmental performance.

# Sustainability & Manufacture

#### Made in Britain

Along with many other British manufacturers, Tube Creation has long been a member of the 'Made in Britain' manufacturing community. Providing purely British products and working with other suppliers within Great Britain means we can offer the best quality products and services while reducing our carbon footprint as a business.

Benefits of UK Manufacturing:

- · Better communication Having the option to meet in person, conduct site visits and offer factory tours is highly beneficial for building a trusting business relationship between us and our customers/suppliers.
- Shorter lead times Less time in transit means the production to delivery time is significantly . reduced.
- Greater quality control We have the ability to QC all our products at any stage of the produc-. tion process. We can also welcome our customers onsite to see how their order is progressing.
- Reduced transport costs No uncertainty surrounding international shipping costs and • hidden customs charges.
- . Reduced carbon footprint – Our products travel less miles, reducing the amount of fuel used to get orders to our customers.

# **Manufactured in North Yorkshire**

#### Office

Staying true to our roots, the office furniture sector forms the very heart of The Tube Creation Company, with our focus predominantly on collaborative areas, meeting tables and general social /break out spaces within offices. Our tables can be found in some of the most high-profile offices in the UK

## Sectors

### Established suppliers to a range of industries

We know furniture and over the years we have worked with a variety of manufacturers and industry suppliers across a spectrum of contract furniture sectors, all in the interest of supplying a great product and service to suppliers. So, whether it's an Office fit out, student halls, or a 5-star hotel, you can guarantee we have the knowledge and expertise to deliver on your project. Our extensive experience in these sectors, especially the hospitality and domestic markets, gives us a significant advantage of the design trends going forward and the opportunity to advance our knowledge of the industry in general.

#### Restaurants

Our products can be found in some of the most up market restaurants and bars in the country and the ability to make bespoke products to a high specification has enabled us to thrive in this sector. Our premium designed pedestal tables have long been a firm best seller offering a more unique and luxurious concept than those found on the mass-produced market

11

- BTR
- · Hotels
- Restaurants
- Offices
- Student accomodation
- Education

#### Hotel

Budget or Boutique, we have supplied some of the world's leading hotel chains with frames such as wardrobes, bedside tables, desks, and vanity units. Our expert design knowledge, exceptional quality products and great project management experience on large phased fit-outs has enabled us to win many prestigious hotel projects.

#### Educational

Each year we produce thousands of frames for educational use, ranging from classroom tables to laboratory tables right through to cloakroom brackets. These tables and frames need to be built to last and we pride ourselves on supplying strong, quality products that will be seen in classrooms for many years to come.

#### Student Accomodation

We are proud to have worked for some of the most respected student accommodation furniture providers and fit out companies. Providing furniture into the three key areas, communal space, bedroom, and kitchen / dining areas. These are generally large projects that are installed in phases and often when the building is still under construction. Our project management team are heavily involved in the preliminary site inspections to ensure the projects run smoothly from production to delivery.

**Experts in the furniture industry** 

Build to rent and PRS, alongside the co-living sector are expanding quickly; and we are proud to be part of these growing sectors. It allows us to develop more suitable products to aide the growth of these areas and provide a high level of service for these projects.

Build to rent and PRS sectors have enjoyed spectacular growth in recent years, and we have enjoyed seeing an increasing proportion of our output supplying the BTR market. Our in-house designers work closely with our BTR furniture suppliers to create a bespoke product that is tailored to the desired size and finish, and one which not only fits in a scheme but enhances it as well.

# Tables & Desks

Our main products when we first started back in 1995 were table and desk frames and they continue to be a core product going through the factory daily.

These strong backbone products are all made specifically to our customers required specification and finished in one of our many RAL colours by our in-house powder coating team. Although we have produced tables & desks since 1995 this doesn't mean we produce the same tables today. We are constantly taking inspiration from our vast knowledge of the furniture industry and creating designs that will work for you or give you some great inspiration for your next project.

Our table and desks can be found in some truly great locations, ranging from amazing offices in Canary Wharf & Berlin, 4-star hotels in Edinburgh, co-working spaces in Leeds and in universities across the country.

#### Rebel Yell

Our Rebel Yell Range is a simple and versatlie range that comes in an elegant and sturdy package. The range consists of dining and bench sets, poseur and coffee tables through to desks and meeting tables.

- 60x20mm ERW

#### The Victor Table Range.

A simple, yet striking design to compliment any interior space. From coffee tables to full table and bench sets, this versatile range will be the perfect addition to your project.

While stand alone tables can make a great feature for a room we understand that the need to have a theme flow through a project is equally important.

This is where our furniture knowledge comes into play even more. Where possible we love to showcase our furniture through out a project This continuity can lift a project and really bring rooms together to make a theme whole.

This featured product (The Victor) perfectly demonstrates this belief. Nicley matching up occasional and coffee tables with complete dining and bench sets.

# Pedestal Tables

#### We are experts in manufacturing unique pedestal table bases for offices, restaurants and BTR.

#### Regal Slight

- 40mm diameter column
- 250x250x5mm top plate with 8
  fixing holes
- 8mm mild steel base
- Coffee, dining & poseur heights
- Felt pads or adjustable feet

Pedestal tables have always been popular with the hospitality sector and are widely used in restaurants. These staple table bases have evolved to be a more bespoke item with various shaped bases and different sized columns.

We produce flat base plates to allow this flexibility in design; this means we can tailor our bases to your spec, whether you require a larger column or a standout base design, such as a hexagon base or a more natural pebble design. These bases are available in our standard dining, poseur and coffee heights and can be paired with a colour of your choice.

Working great as a standalone table in a single, twin or quad column configuration or used as pairs to support a larger top; the possibilities for this style of table goes as far as you can imagine.
